 <p>Treatment Plan cycle</p> <ul style="list-style-type: none">A treatment Plan is created, and is contributed to by team members utilizing the Suggest function to bring the note in a draft status until it has been completed by all members of the team.Once everyone has had the opportunity to add their input, the plan is signed and accepted. This creates a signed progress note in CPMS and Vista.When it is time to renew the plan, the existing plan is closed and renewed, carrying forward the last iteration of the plan that can be updated and edited by the team. Then it is signed and accepted and the updated plan is sent to CPMS/ Vista as a signed Progress Note.	 <p>Anne Marsolek</p> <p>I have been with DSS since 2010 originally as a Training Specialist for MHS, and now as a Project Coordinator for MHS.</p>

Webinar Overview

DSS Mental Health Suite (MHS) is today's most complete, versatile and cost-effective software solution for managing and documenting the care and treatment of mental health patients. Its application ranges from efficiently creating, editing and renewing patient intakes and treatment plans, to enabling care teams to more productively collaborate in order to ensure provider compliance with regulatory guidelines
